

EXPERIENCE THE POWER.

At Eltek, we are power experts with a sharp focus; to develop and provide our customers all over the world with the greatest power solutions available for applications used in an industrial context - where stable, safe and efficient supply of power is crucial.

This has been our passion and motivation for more than 40 years: to innovate and lead the way in power conversion and control. Today we help our customers optimize and safeguard operation of business-critical equipment, reduce their carbon footprint, while at the same time reduce their total cost of ownership of power supply equipment.

Nordic by origin, we have grown to service all countries and cultures, offering the best global technology and solutions matched to local requirements.

The combination of superior expertise, advanced solutions, support and service, makes it possible for our more than 2500 passionate and proactive power experts world-wide to provide our customers with a unique, powerful experience.

Flatpack S Wallbox
The power of simplicity

Compact, wall-mounted and powerful – the Flatpack S Wallbox DC power supply system is here

The Flatpack S Wallbox makes it easy to feed a great variety of applications on ships or other complex sites. Wherever power is in high demand, but space is limited, Flatpack S is the simple and powerful solution. A marine version is available certified according to DNV 2.4.

1

High efficiency – modular architecture

The Flatpack S Wallbox is built around our Flatpack S rectifier, providing high-efficiency conversion in a very compact solution.

2

Full control with comprehensive monitoring

The Smartpack S controller, with its user-friendly web interface, makes it simple to oversee and manage your system.

3

Easy installation and servicing

Rectifiers are hot pluggable. Mounting and connections can be done in a matter of minutes.
